

Please remember that you may need to revisit these activities over a number of days.

Continue to learn you 2,5 and 10 times tables by playing the hit the button game. To make it trickier see if you can take turns and beat your grown up with the game.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Draw pictures of African animals that you might find in Kenya and see if you can label them. Use the internet to help you. Think about and discuss with your grown up why some African animals may not be able to live in our country.

Create a food diary with pictures of all your meals for the week. Use adjectives to describe the foods you ate. i.e. On Monday we ate a juicy, hot steak and crispy, soft chips.

Using the number bonds to 10 and 20, can you make 3 other number facts from one sentence?

i.e. $2+8 = 10$, $8+2 = 10$,
 $10-2=8$, $10-8=2$.

Reading challenge- See if you can read 3 information books. If you don't know have any information books read information about a topic that interests you online. Once you have finished write your own fact book.

History- Make a timeline of your life. Writing the age and what you could do at that age. I.e. In April 2016 I was 2 and I could crawl. In April 2017, I was 3 and I could say my name. See if you can add photographs to your
