to school by car:

concentration.

In-car safety

Whether your child walks, scoots, cycles or travels by car to school, there are lots of ways you can keep them safe.

We've put together some handy safety tips, as well as ideas to help reduce traffic congestion at the school gates.

dropping siblings off elsewhere, etc.

Travelling to school by car

 You live too far away for them to walk or scoot there. Have you considered parking away from school and travelling the rest of the way on foot?

There are practical reasons why some children travel

You may drop them off on your way to work or before

Parking away from school and walking is a great way to increase your fitness, reduce the stress of finding a parking space near to school and also allows a bit of quality time

with your child before your day starts. If your child Children arrive at school relaxed doesn't enjoy walking and it's proven to help their

Why not try it once or twice a week to begin with - it may only add 10 minutes on to your daily routine, but these small changes can have a big impact.

If your child has to travel to school by car make sure they are always restrained in the car using the correct child or booster seat for their age, height and weight. Parking, manoeuvring and exiting a car

it is safe to do so.

back twice to be sure!

pavement, never out onto the road.

 Don't block a resident's driveway, school entrance, a dropped kerb or park within 10 metres of a junction. Zig-Zags

and for drivers to see them. Yellow zig-zag markings

outside school entrances are there to provide a clear area in which children can cross the road safely. Don't park on the zig-zags.

1 in 5 cars on the road

are journeying to schools.

That's a lot of cars!

Travelling to school on foot Walking (and scooting) to school is a great way

Explain to your child that some places

cross roads more safely.

are safer for crossing the road than others.

Crossing roads

Did you know...

in morning rush-hour

relaxed and alert. Young children should always be accompanied to school by a responsible adult. Children cannot judge the speed or distance of a vehicle well enough to be able to cross roads safely until they are at least nine or ten years old.

for your child to start the day. They arrive calm,

STOP

Show your child how to use pedestrian crossings correctly. Use 'Stop, Look, Listen, Think' every time you cross the road together: Stop at the kerb, look and listen for traffic and think before you cross. Explain to your child what you are looking for

and why. Practise this every time you go out and ask

Remember, they will still need your help and guidance

them questions to find out what they have learned.

Park away for cleaner air!! The nearer we all park to

school the more we pollute

the air for our children.

although they will have a better understanding of 'Stop, Look, Listen, Think', the more you practice it. Do not let your child cross the road alone until you are confident they can cope with traffic safely.

 Pupils who cycle (walk or scoot) arrive at school more relaxed, alert and ready to start the day than those who travel by car. • It's great for their concentration,

Travelling to school on a bicycle

Cycling is a fun way for children to travel and

confidence and can even make them

feel more independent.

It's better for the environment

and reduces congestion and

pollution around schools.

one in front of the children.

with them:

Cycling safely to school Here are some basic tips to help you and your child stay safe when cycling: Make sure your child's bike is roadworthy and fits them.

It's also great for everyone to fit in a bit of

exercise at the start and end of the school day.

When you're cycling on the road with your child,

take up a position behind them. If there are two

adults, one of you should cycle at the back and

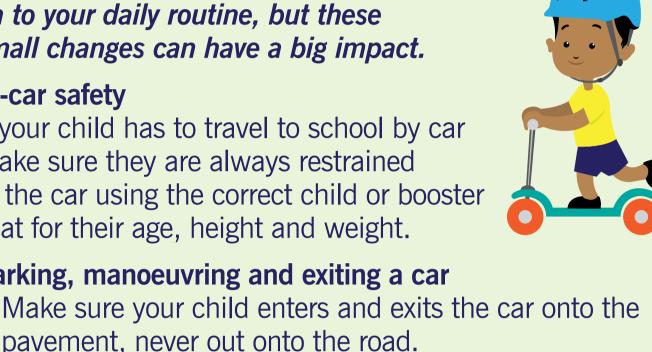

children wear a helmet, but lead by example and

wear one too. (Wearing a helmet is a personal choice and not mandatory.) Brush up on your Highway Code and teach

Wear a helmet! It's recommended that young

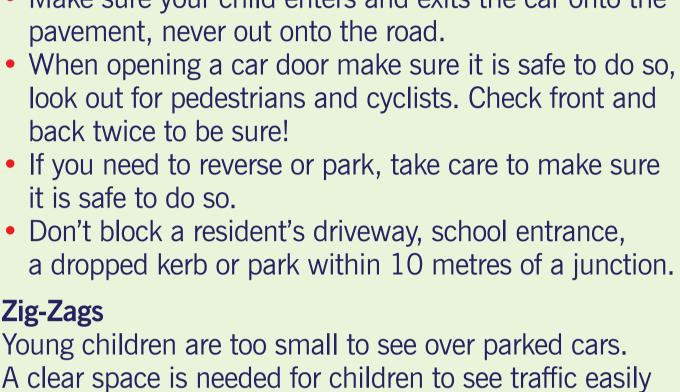

children road safety and awareness. Take special care at junctions, traffic lights and roundabouts - knowing your road positions and signalling clearly is key to a safe journey.

a scooter is

a great idea!

Changing the way we travel to school, even just once or twice a week can have a big impact on your child's well-being and the environment.
